

Best UK/Thailand Money Transfer & Prepaid account provider 2019 Service

UK

A & B General (UK) Limited, the foreign exchange broker under trading name 'ABFX' has evolved the money business in London, UK since 2009. At the present, Leader of UK/Thailand Money Transfer Service and Prepaid Bank Account Provider 2019 – UK is awarded to us and being as the leader of UK-Thailand money service provider. With the diversity of financial products, the reputation of company is known as the solution for Money services business (MSBs) and Payment Services Providers (PSPs) sectors. This displays the strength of our business and relationship between each other.

What is our new sector this year under name 'A & B Money Plus'? It is the bank account and comes with prepaid card system, which powered by "MASTERCARD". It helps people, who cannot access or cross the walls to open the bank account with street banks, obtain the account benefits without asking annoying questions. This service also provides 24/7 online banking and 2 currencies GBP/ EUR in one card. Furthermore, get the wings and fly by "Plus". If the business is in the dream, make it real and go over the limit by Plus. How it could tackle your business problems and run your games in real life, with the low price and fees are resulted from cutting out the middle man as we have directly contract with Mastercard.

Because of world is out of control. Bearing in mind about bank crisis in the UK, not everyone can open the business account. They face difficult time and lose the opportunity to grow the business especially on MSBs and PSPs fields. By the UK regulatory scrutiny and the perceived risks, we could help them survive and still retain banking access with our advanced compliance procedures. Even more advancing for them, one stop service would be offered. Forex exchange is provided as minor service when they need to transfer money to the rest of the world. This is why there is highly demanding on this specific account and make potential ways in determining most of them.

From low to high volume in the market, we turn crisis into opportunity as we have seen a big fish in the market. Business programme is built up from this idea because the success in having agreement with Mastercard. We make the door and let them jump into the new world that it allows them to do financial transaction independently. Therefore we are able to welcome many types of business such as SME, MSBs, PSPs or FX Company to gain benefit from having business account which mean their volume per each MSBs around 2 Million pounds per year or even more. High volume and large payments are made from this. Focusing on it, the account is including with 3 currencies GBP, EUR and USD. This would be the answer for the business that wishes to pay out the rest of the world i.e. logistic companies.

Spotlight on accessible business zone in Thailand, source of fund is around the country but it relies upon the ability of each company which is able to grab it or not. There are many Interesting retails which always are ready to do business with you but there is some kind of restriction in law, which is controlled by the tough regulator and private authorities. At some point we decide to dash off making a plan to penetrate the market by Thailand will be laid down as the base and being the port to receive or transfer the fund for import and export sector to Alibaba in China. However there are still more business fields and fund from other countries which wish to invest and settle in Thailand i.e. property sector. The middle man like us will play the most potential role in being as a connector between businesses and negotiate with Thai regulator in the future.
